

**Winter/Spring
January 1, 2005**

**Town of Gardnerville
1407 Hwy 395 N
Gardnerville, NV 89410
775-782-7134**

Office hours are 8:00-5:00 Mon-Fri

In Atlanta, Georgia, it is illegal to tie a giraffe to a telephone pole or street lamp

Heritage Park

Restroom construction began at Heritage Park, and when completed park visitors will have a brand new facility in place.

At least three weddings were held at the Pavilion in the fall of 2004. The Rotary Club has also requested and received permission to construct a flagpole at the park.

Tom Cook Selected as Public Official of the Year

At the Nevada League of Cities and Municipalities 2004 Annual Conference, the Town Board Vice Chairman was honored and recognized as Nevada's "Public Official of the Year".

This award has been presented annually since 1979 to the elected official demonstrating exemplary public service, leadership, and commitment to his or her community. Tom is the first ever elected official from an unincorporated municipality to receive the award.

Tom is currently serving in his third four-year term on the Town Board, and served as the League's 3rd Vice President for three years. He also serves on the Nevada Rural Housing Authority and on the Garden Cemetery Board.

He has also been an active member of the Carson Valley Lions Club for almost three decades.

Our community can be proud of Tom's accomplishments.

Town News

Town Website

The town website was recently upgraded in an effort to increase the amount of commonly requested information and documents available www.gardnerville-nv.gov

Take an opportunity to explore the site and let us know if there is something else you would like to see included.

Main Street Lighting

With the completion of the first phase of decorative lighting in 2004, preliminary designs for the next phase are being developed. The next phase of lighting would include the area north of Mill up to Church Street and includes removing the wood poles from Main Street.

The challenges presented by the next phase are substantial-the power lines in this area tie two Sierra Pacific Power substations together and the fiber optic line connecting Carson Valley to Carson City all need to be relocated.

Possible construction timeframes of project funding options will be discussed by the Town Board as soon as the planning process is completed.

Please don't tape signs to the new Main Street Light Poles - the adhesive ruins the protective coating and leaves a mess. THANKS.

2004 Street Projects

Mill and High School Streets between Douglas and Hussman were completely reconstructed during the summer 2004 season as part of the capital improvements program.

Additionally, the majority of roads in the service/industrial areas were patched and chip sealed.

Town crews will again be crack sealing this spring.

125th Birthday Celebration

Hopefully you attended one of the events last year to celebrate Gardnerville's 125th Birthday. **If you are interested, we still have a few commemorative coins left for sale.**

Toiyabe Sidewalk Construction

As soon as the Gardnerville Town Water Company completes water service line upgrades, sidewalks will be constructed on Toiyabe between Lampe and Toler.

With cooler weather somewhat slowing the concrete industry, it's possible lower unit pricing may be obtained. As this project gets closer property owners in the area will be contacted.

Centerville Road Construction

NDOT has announced plans to reconstruct Centerville between SR 88 and US 395 in 2005. A future project to help with capacity is planned, according to NDOT officials, and would most likely include curb, gutter, sidewalk, and turn lanes.

Arbor Gardens

Syncon Homes hosted a park dedication in September to officially open this new neighborhood park and deed the facility to the Town.

Gilman/Main Traffic Signals

The traffic control poles at Gilman and Main Street will be painted black to match the new light poles. Watch for additional improvements along Main Street, as the Town and adjacent property owners are working cooperatively on sidewalk and streetscape improvements.

Memorial Bricks

As you might have already seen, the second set of Memorial bricks is on the pavilion. We are still taking orders if you would like to add your name or someone you want to remember, please call or come into the office.

We have a drop box in the parking lot for after-hours payment drop-off.

Office hours are 8:00-5:00
Monday through Friday.
Closed on holidays

Visa and Mastercard. accepted

We are thinking of changing the fall cleanup and limb/leaf pickup dates from October to November. The pickup days would most likely be the week of November 14-18 for cleanup and limb/leaf pickup November 28-30 on your regular trash day. Please call the town office and give us your input. Final dates will be in the fall newsletter.

Health & Sanitation

Gardnerville has two new employees. Please join us in welcoming Troy Orosco, hired July 2004 and Daniel Grimes, hired August 2004.

Spring cleanup will be the week of **April 11-15, 2005**. Please put your extra trash out on the same day as regular trash (up to 5 bags, cans or boxes of extra trash)

Limb pickup will be the following week - **April 18-22, 2005**. (no more than five bundles of limbs tied securely with rope.)

Special Points

There have been reports of dumping near the Martin Slough on Gilman Ave. Please report any debris being dumped to the Town office. Help us keep the area clean

Refuse cans need to be out by 5:30 a.m. the day of trash pickup or the night before. Every driver has his own schedule. Some may be earlier than others and we'd hate to miss anyone.

Greenwaste cans (denoted with an orange reflector on the top of the can) are for grass clippings, weeds, leaves and very small branches. Large amounts of dirt, trash or large branches cannot be taken to the composting facility. Please help us keep dumping costs down.

Reminders:

Greenwaste is picked up on Tuesdays - entire town

Chichester & Kingslane trash day - Thursday

Arbor Gardens trash day - Friday

All other parts of town trash day - Wednesday

Commercial customers:

Please clean out enclosures. During the winter months dumpsters tend to freeze to the debris left from the fall.
